

EGG SPRAY

MULTI-PURPOSE PROTECTIVE COATING/SEALANT

Product Description: Though EGG SPRAY is used primarily for extending the shelf life of eggs by sealing the pores in the shells, this H1 approved white oil may also be used as a lubricant and rust preventative in NSF approved food processing facilities.

Features:

- Contains 10 ppm Vitamin E. as an oxidation inhibitor - greatly extends the "life" of the oil.
- Low volatility
- Low pour point
- Excellent color stability
- Economical
- Certified Kosher and Pareve for Passover.

Typical Uses:

- As an egg shell "sealant" to prevent airborne bacteria from spoiling the eggs, thus extending shelf life.
- As a lubricant and rust preventative in facilities where there may be incidental food contact.
- This product complies with 172.878 of Title 21 of the Code of Federal Regulations.

Typical Specifications:

Gravity, API	33.3
Flash Point, °F.	350
Fire Point, °F.	390
Pour Point, °F.	-4
Viscosity:	
cSt. @ 40°C.	11.1
cSt. @ 100°C.	2.97
Color, D1500	+ 30
