

GUARDIAN Food Machinery Grease

MULTI-PURPOSE FOOD MACHINERY GREASE

PRODUCT DESCRIPTION

GUARDIAN FOOD MACHINERY GREASE is an **aluminium-complex thickened grease**, formulated with food grade base oils. Its unique formulation allows it to pass the food grade standard for incidental food contact. GUARDIAN FOOD MACHINERY GREASE has a higher dropping point than traditional complex greases. It is white in appearance and has smooth, buttery consistency.

TYPICAL USES

- Used for the lubricating of all types of grease bearings commonly found in canneries, beverage bottling plants, potato chip plants, poultry processing plants, meat processing plants and other food processing plants.
- Complies with Food and Drug Administration (FDA) Federal Regulation 178.3620 and where incidental food contact might occur.

FEATURES

- Multi-purpose food machinery greases for many applications - reduced inventory.
- Excellent rust protection.
- Virtually no oil separation.
- Adhesive tacky grease that stays in place.
- Cost effective food grade grease.
- Compatible with Al, Ca and Lithium complex greases

TYPICAL PROPERTIES

NLGI 0

Penetration @ 77°F. (WORKED)	365
Dropping Point, °F	300
Color	White
Texture	Smooth
Tackiness	Tacky
