Dear Valued Customer:

RE: Penpure and Duoprime Equivalence

This letter is to certify that the Duoprime® Oil line of products and the PenPure line of products are the same product and differ only in the name. Both the Duoprime® Oils and the Penpure oils are USP/NF grade mineral oils that undergo the same manufacturing process as well as meet the same specifications and are therefore equivalent to each other.

If you have any further questions or concerns, please contact our Penreco® product support department.

Sincerely,

A handwritten signature in black ink that reads "Chelsey Kirby".
