Dear Calumet Specialty and Calumet Penreco Customers,

As you are probably aware, the European Union published the REACH (**R**egistration, **E**valuation and **A**uthorization of **C**hemicals) legislation on December 30, 2006 and it entered into force in all countries of the EU as of June 1, 2007. Pre-registration began June 1, 2008 and continues until December 1, 2008. In order to comply with all the new requirements and deadlines, information flow, up and down the supply chain, is vital.

This letter is to confirm that Calumet/Penreco plans to pre-register the substances in its products directly exported to the EU. We are not planning to pre-register substances sold to customers in the US and subsequently exported by those customers. We will work with our customers to provide data for their REACH registration efforts. Our Only Representative Firm is H2 Compliance in Dublin, Ireland. Our contact for H2 Compliance is Kevin Hoban and he can be reached as follows:

After the pre-registration period, Calumet/Penreco, in cooperation with other SEIF members, will work to coordinate data gathering, testing and ultimately registration of their direct exports. We will continue to provide data support for our customers who export.

Calumet/Penreco has a REACH Implementation Team to address these important issues. I am the technical contact for the team. If you have any questions, do not hesitate to contact me by email (Anne.Goldsmith@CalumetSpecialty.com) or phone.

Thank you for your continued interest in Calumet/Penreco products and for your future collaboration as we all endeavor to fulfill this challenging requirement.

Sincerely,

Anne B. Goldsmith, CQM
